

Now & Here

Aquilo

Walk me through my dreams
And carry me forever
If I test my eyes I'll see
Another weird transition

Touch this moment
I feel everything
Colors bleeding when you speak

You should go
You should go
Go go go go...

Drag me through these streams
Of twisted situations
If we fight we might get high enough to be
Beyond where people listen

Don't let go
Our time is now and here

You should go
You should go
Go go go go...

You should go
You should go
Go go go go...

This is just a dream...
This is just a dream...
