

## Seagull

Aquilo

All I need is a circle I can trust  
Whoever these open eyes should see  
Kiss me more than just a reason to show I'm fine  
I never had a reason to waste my time  
And I'm open to the thought of getting by

But then she goes, she goes by  
In the corner of the sky  
Like a seagull, she flies high  
'Cause she's always on my mind

What if I could be somebody else?  
'Cause lately I've been thinking way too much  
I was hoping you could take me away for good  
I never had a reason to say I should  
But I'm open to the thought of getting by

But then she goes, she goes by  
In the corner of the sky  
Like a seagull, she flies high  
'Cause she's always on my mind
