

# Silver Spoon

Aquilo

Whatever you say you wanted  
Whatever you say, you got it

My baby drives a 4x4  
Says it feels good when her feet can't touch the floor  
My baby tells me what to do  
Self domesticated good life  
What a silver spoon

And she knows  
She has almost everything  
And she knows  
I'll do almost anything

Whatever you say you want it  
Whatever you say you got it

My baby tells me how to dress  
She says I look better when I get it all off my chest  
Well my baby always gets her way  
Living like a queen she's the only one that gets to play

And she knows  
She has almost everything  
(She's my silver spoon)  
And she knows  
I'll do almost anything

Whatever you say you want it  
Whatever you say you got it
