

A Flash In The Pan

Arabesque

Never fall in love on a train
For the train's moving on
And your lover has gone
Never fall in love on a plane
It will come to an end
For a plane has to land
You think it's love for evermore
The one you have been waiting for?
Only a flash in the pan
Easy come and easy go
Only a flash in the pan
Love is like a one night show
Only a flash in the pan
Easy come and easy go
Only a flash in the pan
Love is like a one night show
When there's love in your eyes
You should better look twice
Never fall in love in the park
With a wonderful guy
Who will always deny
He has ever seen the spark
Not to mention the girl
Whom he promised the world
You think it's love for evermore
The one you have been waiting for?
Only a flash in the pan
Easy come and easy go
Only a flash in the pan
Love is like a one night show
Only a flash in the pan
Easy come and easy go
Only a flash in the pan
Love is like a one night show
When there's love in your eyes
You should better look twice
Only a flash in the pan
Easy come and easy go
Only a flash in the pan
Love is like a one night show
Only a flash in the pan
Easy come and easy go
Only a flash in the pan
Love is like a one night show
When there's love in your eyes
You should better look twice
You should better look twice
When there's love in your eyes
You should better look twice
When there's love in your eyes
