

## Born To Reggae

Arabesque

A house in the sun  
All the neighbors await in the garden  
For the happy new fan  
That is near will be starting the party  
And then I am born  
At this time and the garden is playing  
My fellows get me birthday song  
Everybody is singing along  
I am born to reggae  
Born to reggae  
I feel the reggae rhythm going under my skin  
Born to reggae  
I am born to reggae (reggae-reggae)  
Born to reggae (reggae-reggae)  
It's more intoxicating than a bottle of gin  
Born to reggae  
The house in the sun  
It is now the hotel and the garden  
It's a holiday park  
Every night a Caribbean party  
I sing with the band  
And the people are drinking and dancing  
At midnight I sing a song  
That everybody is singing along  
Chorus
