

# City Cats

Arabesque

We are the city cats  
We came along to see you, Tom  
Hey, where are you  
Come on  
The other cats have told us  
You're so beautiful and strong  
Hey, where are you  
Come on  
We'd like to know  
If this is really so  
We didn't only come to say hallo

\* We're the city cats  
City cats, city cats, city cats  
Don't try to hide  
'Cause we can see by night  
We're the city cats  
City cats, city cats, city cats  
Don't strike a light  
'Cause we are dynamite  
(We are dynamite)  
(We are dynamite)

You're hiding in the darkness  
Tom, you seem to be afraid  
Hey, where are you  
Come on  
We'll hunt you down  
We're starting now  
Because it's getting late  
  
Hey, where are you  
Come on  
If you're this man  
This famous lover man  
Tonight you'll have to prove it, if you can

\* (Repeat)

We promise we will love you only  
We'll share you love, you won't be lonely  
Where are you Tom, we are exploding  
Don't you see, we are three.....
