

Discover Me

Arabesque

If you could look into my heart of hearts
You would see what's going on in me
But I am always sort of on my guard
How to show my feelings I don't know

May be you don't like it
Baby but you must reveal
All my little mysteries

May be that I like it
Baby just because I feel
You came my way
To hear me say

Hey, discover me
To my heart there is a key
If you manage to set me free
I'll open up my heart for you
Hey, discover me
For I hope that you can see
Only love is the way for me
I have been waiting
Waiting for a man like you

I have some friends if they could see me now
They would say: At last she made her way
I have been searching for you love somehow
Now and then there was a loverman

May be that I like it
Baby but you must reveal
All my little mysteries

May be that I like it
Baby just because I feel
You came my way
To hear me say

Hey, discover me
To my heart there is a key
If you manage to set me free
I'll open up my heart for you
Hey discover me
For I hope that you can see
Only love is the way for me

Hey, discover me
To my heart there is a key
If you manage to set me free
I'll open up my heart for you
Hey, discover me
For I hope that you can see
Only love is the way for me

Hey, discover me
For I hope that you can see
Only love is the way for me

Hey, discover me ...
