

# Friday Night

## Arabesque

The work has been done  
And the boss is gone  
Baby, I'm on my way to you  
Friday night

I missed your embrace  
Seven lonely days  
There are so many kisses due  
Friday night

The week has been long  
But our love is strong  
And tonight we will start a new  
Friday night

The taste of the wine  
Will be so divine  
When I'm sharin' my glass with you  
Friday night

Since Friday night  
I've been so lonely  
Tell me why  
You kiss me only  
Only Friday night  
The more kiss you  
Friday night  
The more I miss you  
Every night  
My love's too big for only Friday night

Friday night  
Wrong or right  
Dim the light we're out of sight  
Friday night  
Wrong or right  
Hold me tight with all your might  
Friday night is alright  
Every night should be a Friday night

I hope and I pray  
You will say one day  
That our love is not only for  
Friday night

For then is will be  
Ev'ry night, you'll see  
And for ever and evermore  
Friday night

Since Friday night  
I've been so lonely  
Tell me why  
You kiss me only  
Only Friday night  
The more kiss you  
Friday night

The more I miss you  
Every night  
My love`s too big for only Friday night

Friday night  
Wrong or right  
Dim the light we`re out of sight  
Friday night  
Wrong or right  
Hold me tight with all your might  
Friday night is alright  
Every night should be a Friday night

Since Friday night  
I`ve been so lonely  
Tell me why  
You kiss me only  
Only Friday night  
The more kiss you  
Friday night  
The more I miss you  
Every night  
My love`s too big for only Friday night

Friday night  
Wrong or right  
Dim the light we`re out of sight  
Friday night  
Wrong or right  
Hold me tight with all your might  
Friday night is alright  
Every night should be a Friday nigh
