

I Stand By You

Arabesque

Baby come on
Tell me what`s wrong
I see the tears in your eyes
So don`t deny
That there is something going on
That makes you cry

Don`t lie to me
`cause I can see
You try to carry this weight
Baby, that`s great
But don`t you find it`s even better
If we fight together
I will never let you down

For
I stand by you,
Come rain or shine
I stand by you
I stand by you
Your hand in mine
I stand by you
I still can hear you say
If it were only yesterday
For better and for worse
Baby, I stand by you

Do not give up
Losing your job
It makes the sky very dark
But in my heart
I have the feeling that it means
A brand new start
Hiding your head,
Staying in bed
It never has been your style
I tell you why
I`ll be alright because forever
We will stick together
I will never let you down
For

I stand by you,
Come rain or shine
I stand by you
I stand by you
Your hand in mine
I stand by you
I still can hear you say
If it were only yesterday
For better and for worse
Baby, I stand by you
