

Lucifer's Lover

Arabesque

It was long, too long ago
Since love had touched my heart
And then there was this man
This nice and gentle man

In his eyes was paradise
I fell right from the start
So was all aflame
Before I knew his name

I
Was
Lucifer's lover
I believe he came from heaven
Now I know forever why love is blind

I
Was
Lucifer's lover
I am not ashamed I loved him
He will be forever on my mind
On my mind, on my mind
Now I know why love is blind
On my mind, on my mind
Now I know why love is blind

Yesterday he went away
He gave me one more kiss
He said: I have to go
Where to I guess you know

Then I cried, I even tried
To come along with him
He said: That's not a place
For you, my angel face

I
Was
Lucifer's lover
I believe he came from heaven
Now I know forever why love is blind

I
Was
Lucifer's lover
I am not ashamed I loved him
He will be forever on my mind
On my mind, on my mind
Now I know why love is blind
On my mind, on my mind
Now I know why love is blind

I
Was
Lucifer's lover
I believe he came from heaven
Now I know forever why love is blind

I
Was
Lucifer's lover
I am not ashamed I loved him
He will be forever on my mind
On my mind, on my mind
Now I know why love is blind
On my mind, on my mind ...
