

# Touch And Go

Arabesque

Love, I opened my door  
Though I had never seen you before  
I fell for all your charms  
And you took me in your arms

It was love at first sight  
I didn't care about wrong or right  
I did not know your name  
But I kissed you all the same

Touch and go  
If you can't stay I let you go  
But stay away 'cause to and for  
Is not my style you know  
Touch and go  
My lonely heart was all aglow  
But now it's over, bye bye love  
I'll miss you but I know  
That it was touch and go

Love you make a mistake  
If you believe my heart's gonna break  
I cry, of course I cry  
I don't have to tell you why

'Cause it will never be  
The way you talked about you and me  
I don't say you're to blame  
But I tell you all the same

Touch and go  
If you can't stay I let you go  
But stay away 'cause to and for  
Is not my style you know  
Touch and go  
My lonely heart was all aglow  
But now it's over, bye bye love  
I'll miss you but I know  
That it was touch and go

Don't you cry  
Don't you cry  
You will see as time goes by  
There will be a blue and sunny sky

Touch and go  
If you can't stay I let you go  
But stay away 'cause to and for  
Is not my style you know  
Touch and go  
My lonely heart was all aglow  
But now it's over, bye bye love  
I'll miss you but I know  
That it was touch and go

Touch and go  
If you can't stay I let you go

But stay away 'cause to and for  
Is not my style you know  
Touch and go  
My lonely heart was all aglow  
But now it's over, bye bye love  
I'll miss you but I know  
That it was touch and go
