

# You Better Get a Move On

Arabesque

You better get a move on  
Forget me when you are gone  
You better get a move on  
You've been here much too long

I was feeling so lonely  
I simply needed someone to lean on  
I feel in love with a phoney  
The only man I shouldn't be keen on

Go now  
I tell you once more  
Go now  
I show you the door

You better get a move on  
Forget me when you are gone  
You better get a move on  
You've been here much too long

I have been loving you  
Oh yes, I know it's true  
But you must go, please do

Love is blind as a beetle  
I didn't know you were such a teaser  
Now I see like an eagle  
And what I see is very displeasing

Go now  
I tell you once more  
Go now  
I show you the door

You better get a move on  
Forget me when you are gone  
You better get a move on  
You've been here much too long

I have been loving you  
Oh yes, I know it's true  
But you must go, please do

You better get a move on  
Forget me when you are gone  
You better get a move on  
You've been here much too long

You better get a move on  
Forget me when you are gone  
You better get a move on  
You've been here much too long ...
