

# Electric Eye

Aranda

I'm not paranoid, I'm prepared  
Breaking down databases everywhere  
I only need to trust who I have to trust  
Turning all my enemies into cyber rust

You know I got the eye in the sky  
I found my truth in a lie  
I found the secrets that you're trying to hide  
I can see what you don't want me to see  
And eventually  
You'll be infected with electric disease

Electric Eye  
You can run but you can't hide  
Electric Eye  
I'll make it simple for you access denied  
Electric Eye  
Like an EMP I'll blow your mind  
Electric Eye  
Another reason you won't survive

What you see is not what I did  
I'm always playing you goin' off the grid  
You call this place secure? We'll see about that  
Break the digital code and hear the rat a tat tat

I know the things that you never told  
That only shadows can know  
That you spoke into the nights bitter cold  
It's one or zero there is no in between  
You can beg you can scream  
Buts its data's and it don't feel a thing

Electric Eye  
You can run but you can't hide  
Electric Eye  
I'll make it simple for you access denied  
Electric Eye  
Like an EMP I'll blow your mind  
Electric Eye  
Another reason you won't survive

Electric Eye  
You can run but you can't hide  
Electric Eye  
I'll make it simple for you access denied  
Electric Eye  
Like an EMP I'll blow your mind  
Electric Eye  
Another reason you won't survive

Electric Eye  
You can run but you can't hide  
Electric Eye  
I'll make it simple for you access denied  
Electric Eye  
Like an EMP I'll blow your mind

Electric Eye

Another reason you won't survive

I'm not paranoid, I'm prepared  
Breaking down databases everywhere

Electric Eye

I only need to trust who I have to trust  
Turning all my enemies into cyber rust

Electric Eye

Like an EMP I'll blow your mind
