

Keep On Lovin You

Aranda

I'm a little bit tired tonight
Everybody wanna play me like a fool
I'm a little bit wrong
And a little bit right
And I'm a little bit crazy baby
Don't wanna throw it all away
Don't wanna lose
I don't wanna lose you babe

There when the night is cold
Would you know it?
I betcha don't even know
That I can't let you go

Whenever you call my name
When you lose your faith
I wanna keep on lovin' you
And no matter what they say
We could find our way
I wanna keep on lovin' you
Keep on lovin' you

And I'm a little bit tired tonight
Lookin' for the rhythm of the truth
I get a little bit weak when I read your signs
I won't rely on compromise
I'm gonna be everything you want me to
You want me to baby

Cuz out of my darkest moment girl
Ya came runnin'
And saved me from this lonely world
And I want you to know

Whenever you call my name
When you lose your faith
I wanna keep on lovin' you
And no matter what they say
We could find our way
I wanna keep on lovin' you
Keep on lovin' you

Round and round and round we go
Can you ever understand?
There in the shadow behind your pride
Is the fire that burns through the coldest lies
Whenever you call

Whenever you call my name
When you lose your faith
I wanna keep on lovin' you
And no matter what they say
We could find our way
I wanna keep on lovin' you

Whenever you call my name
When you lose your faith

I wanna keep on lovin' you
And no matter what they say
We could find our way
I wanna keep on lovin' you

Whenever you call my name
When you lose your faith
I wanna keep on lovin' you
And no matter what they say
We could find our way
I wanna keep on lovin' you
Keep on lovin' you
