

# Now and Forever

Aranda

Alone  
For now it seems  
I let it fade away I know I did  
In this broken dream  
And now the love is gone  
And life it ain't the same  
And I can't make it here without you babe  
In this lonely place

Ooooh and I know  
It can't be too late  
If the love is real baby  
How could you throw it all  
Throw it all away

I don't wanna live in this world  
Without your love  
Now and Forever  
And I'm gonna love you  
This time I swear  
I'll give my all  
Now and Forever  
I'm gonna love you

Sometimes  
It's so hard to say  
How could a perfect love go wrong and leave me this way?  
The nights are colder now  
It's killin' me inside  
And I remember when we had a love  
To keep us alive

Oh and I know  
It can't be too late  
If the love is real baby  
We gotta give it all  
Give it all

I don't wanna live in this world  
Without your love  
Now and Forever  
And I'm gonna love you  
This time I swear  
I'll give my all  
Now and Forever  
I'm gonna love you

As the sun goes down upon my faith  
I sit and stare  
And I know the truth  
I'm here for you alone  
If you take my hand  
You would understand that we could turn this thing around  
Baby I live for your love  
Darlin' I live for your love

I don't wanna live in this world

Without your love  
Now and Forever  
I'm gonna love you  
This time I swear  
I'll give my all  
Now and Forever  
I'll give it all to you  
Now and Forever  
I'm gonna love you
