

## Pay For

Aranda

I got one more shot  
I'm the underdog  
Up against the world  
Gonna prove 'em wrong

You can't tell me who I'm gonna be  
It's the raging fire that'll set me free

I was lost for days  
I finally found my way  
I got one solution  
I gotta a way to make you

Pay for every time you said I'd never make it out  
Yeah I am the underdog

I got one more chance  
I'm the underdog  
Just wait for me  
It won't be too long

You try to keep me from my victory  
But redemption day is gonna come for me  
Alright

I was lost for days  
I finally found my way  
And don't it feel good?  
I got one solution  
I gotta way to make you

Pay for every time that you would try to make me doubt  
Pay for every time you said I'd never make it out

Pay for every time you said I'd never make it out  
Pay for every time you said I'd never make it out

Pay for every time that you would try to make me doubt  
Pay for every time you said I'd never make it out
