

The Upside Of Vanity

Aranda

I'm watching you, you're watching you
Captured by the mirror that you're looking through
I know you know we gotta go
But you're putting on a one woman fashion show
And everytime you change your mind
Is another minute gone that I gotta find
I'm moving fast, I hit the gas
Tearing up that road

Whoa-oh
You look so right, baby can't be wrong
Whoa-oh
I know it was worth the wait

The upside of vanity
Is what you do to me
Brings me to my knees
It's living on the edge
It's time to get ahead
The upside of vanity
Is what you do to me
You on my T.V
The upside of vanity, upside of vanity

I'm watching you, their watching you
Take another turn, baby, look at you
A camera flash, gotta make it last
Give a little, oh, and give it more
Oh and everytime, I feel inclined
To give another thought to my jealous mind
Need I remind myself that I'm the
One taking you home

Whoa-oh
If I'm your fool, baby, that's alright
Whoa-oh
You know I'll never give it up

The upside of vanity
Is what you do to me
Brings me to my knees
It's living on the edge
It's time to get ahead
The upside of vanity
Is what you do to me
You on my T.V
The upside of vanity, upside of vanity

Oh, I'm digging your walk
Digging your talk
Wouldn't leave home without ya
'Cause when the lights are on ya
Know they'll all be staring at ya
You make me look good
Knew that you would
Since it's your own intention
And when the night is over

And when the night is over
And when the night is over, oh

The upside of vanity
Is what you do to me
Brings me to my knees
It's living on the edge
It's time to get ahead
The upside of vanity
Is what you do to me
You on my T.V
The upside of vanity, upside of vanity

Is what you do to me
It's living on the edge
Upside of vanity
