

Two Worlds

Aranda

I've gotta face the reality
That I'm a symbol of duality
And the promises I've made I had to keep

Never believed in humanity
But to protect it is my destiny
And my good intentions lead to evil deeds

Caught between the light and dark

Two worlds colliding
Is all I've ever known
Two worlds divided
Has left me on my own gotta fight alone
Two worlds

It's an interesting dichotomy
The good and evil that's inside of me
And I know that I've been used and been abused

My creator needed me to see
Another soul deep inside of me
And I'm trying to fight for what I'm meant to be

Caught between the light and dark

Two worlds colliding
Is all I've ever known
Two worlds divided
Has left me on my own gotta fight alone
Two worlds

Two worlds collide
I try to hide
But the light and dark won't let me go

So I run and fight as I face the light
But the darkness tries to call me home

So once again am I foe or friend
Only time will truly let me know

Two worlds colliding
Is all I've ever known
Two worlds divided
Has left me on my own gotta fight alone

Two worlds colliding
Is all I've ever known
Two worlds divided
Has left me on my own gotta fight alone
Two worlds
