Arash Buana

I got a little confession to make
I just met a girl that made my heart awake
And what I see, we can agree
Well, you're the only one for me

As the days pass by, I realize
The time without you are the ones that I despise
What should I do? Give me a clue
'Cause everything reminds me of you

Can't help but think that I can go insane
Oh, without you
If I had one more chance
A redemption of romance

We could drive around town
Somewhere we can't be found
I could say that, it's a date
Or we could just fool around
As long as you're with me
And I'm here with you
We can do like anything that you wanna do

Can't help but think that I can go insane
Oh, without you
If I had one more chance
A redemption of romance

We could drive around town
Somewhere we can't be found
I could say that, it's a date
Or we could just fool around
As long as you're with me
And I'm here with you
We can do like anything that you wanna do

Or we could head up to the clouds
Far away from the crowds
Or maybe fly up to the moon
With our laughter in tune
No matter where we go
One thing you should know
Down the sea or up above
You're the one that I love

Da-da-da, da-ra, da
Da-da-da, da-ra, da
Da-da-da, da-ra, da
Da-da-da, da-ra, da
