

Fiona

Arash Buana

Never thought I'd meet you here
Everything is crystal clear
That I... fell... for you
Lost in your eyes
That glow bright like the stars
Now everything is all about you

It's kinda loud and noisy here
Too many people interfere
Well I know a place that's quite near
We could go out
For a drink or two
But I'll be busy staring at you

I know I should've kept on moving on
But something keeps on telling that I'm wrong
The glance that you gave me
Went straight to my heart
Since there is no much time
For me to stay
Before I leave I got something to say

Fiona
U took my frown and turned it over
A treasure I found in October
When I look at you time gets slower

I know I should've kept on moving on
But something keeps on messing up my brain
The glance that you gave me
Went straight to my heart
Since there is no much time
For me to stay
Before I leave I got something to say

Oh, Fiona
U took my frown and turned it over
A treasure I found in October
When I look at you time gets slower
I'll find my way to get closer
You'll always be my own clover
Will I get to call you my lover
You'll make my days even better
Happier than I could ever
Just wanted to say that I love u
