

something about you

Arash Buana

I might be a little too much again
The universe conspiring
It's a feeling I can't explain
Our worlds colliding

As we talk over the city and its bustling noise
Our coffees are getting cold, oh

Was I lost in my thoughts again?
It's a habit
You were talking about your friend
I got distracted

'Cause there's something 'bout the way that you make me feel
Feels like a dream though I know that it's real

Something about you
There's just something about you
You don't know how long I've waited for this day
I know that it may sound cliché
There's something about you

Am I thinking too much again?
Contemplating
With a vision I can't escape
It's amazing

And if you only knew how my world was so blue before you
I don't know how have I lived this long without having

Someone like you
There's just something about you
You don't know how long I've waited for this day
I know that it may sound cliché
There's something about you

Something about you
(Something 'bout, something 'bout, there's just something 'bout
, something 'bout)
There's just something about you
(Something 'bout, something 'bout you, there's just something '
bout, something 'bout you)
You don't know how long I've waited for this day
I know that it may sound cliché
There's something about you
(Something 'bout, something 'bout you, there's just something '
bout, something 'bout you)
