

take a break

Arash Buana

If I could
Just simplify
And have my way
To enjoy my life
Wish I could do that

Minor things
To major things
To think I've wasted
All my dreams
It's hurting my back

I don't care if it's
Supposed to go like this
Turning 19
Not as what
I thought as I should be
How I really liked to daydream
And figure ways on how to
Make a scene
How every night
I wish I died
Then start a fight

If I could take a break
Far away
From everything
Would that be okay?
What can I say
Every single night I'm fighting
For myself
So why do they
Keep bothering and make it
Feel like hell
What can I say
All I ask is
Just a break

Everyday feels
Like a war
Wish I could go back
To before
I'm sick of myself
'Til now I still
Don't know
Which way
Am I supposed to go
It's hurting my head

I don't care if it's
Supposed to go like this
Turning 19
Not as what
I thought as I should be
How I really liked to daydream
And figure ways on how to
Make a scene

How every night
I wish I died
Then start a fight

If I could take a break
Far away
From everything
Would that be okay?
What can I say
Every single night I'm fighting
For myself
So why do they
Keep bothering and make it
Feel like hell
What can I say
All I ask is
Just a break

Oh oooh
Oh oooh
Oh oooh
Oh oooh

If I could take a break
Far away
From everything
Would that be okay?
What can I say
Every single night I'm fighting
For myself
So why do they
Keep bothering and make it
Feel like hell
What can I say
All I ask is
Just a break
