It's too good to be true
And the truly be good
And people underestimated, but I knew that we could
Rise up from Al Moore all the way to Tehran
People see me on the streets and be like Va Erehan
It's been a long road full of pitfalls
Tonight I celebrated it, now is this wrong?
I'm three times stronger, louder, older
Put up your arms till it comes out of your shoulders
Fill up your glass and laugh it up
We gon' live up the lives so that after nothing is left
Man, we got a chance if you try
So dasa bala, put your hands up in the sky

Dasa bala dasa bala googooli
too halo hoolim hamegi shangoolim
dasa bala dasa bala hamegi
too halo hoolim bahale zandegi
