Someday

Yeah, yeah a to the r a s h i's in the house, y'all like that, y'all  
Uh, uh, yeah on and on, to the beat, y'all  
This is how we do it no doubt, no doubt yeah, check, check it out

Time turns the pages on the days that go by you've already gone somewhere far  
away  
Ah... you, who my feelings didn't reach, won't come back anymore but I can't  
forget, all night  
Yo something more dazzling than the sunlight how far will you radiance go  
ah  
Things you can't see because they're too close things you come to see as time  
passes

(I love you even now endless love someday, you'll come back to me)

The atmosphere when we hold hands the courage to stretch out and pull you close  
It makes a sound and crumbles away, exciting my heartbeat  
I fell a bit more in love with you now there's just a little more until I'm  
a different me from those days  
I'll send it I'll tell it I'll echo it yeah

(Ah... the painful memories are passing)

With my whole body and soul, I'm making my way  
To get back "myself", I'm going upwards  
I'll find something new  
Surely we'll meet again someday

(Ah... if it's now, I'll tell you everything)

With my whole body and soul, I'm making my way  
To get back "myself", I'm going upwards  
I'll find something new  
Surely we'll meet again someday

(Your tears, smiles, everything  
Standing next to you, holding hands)

With my whole body and soul, I'm making my way  
To get back "myself", I'm going upwards  
I'll find something new  
Surely we'll meet again someday

(I want to always be there to feel it)

Surely we'll meet again someday

The mornings I think of you continue to be painful there's an umbrella covering my heart  
Ride on let's get on board now we don't need peaceful days  
A clock tick-tick-tocks it's ok don't worry about it and leave it alone  
Unchanging feelings always go in a straight line feelings that won't end are already at their limits

(I love you even now endless love someday, you'll come back to me)

Someday, you'll be by my side again at that time, I'll vow to you, eternally  
I'm sure I won't give up I'm completely unshakable  
I fell a bit more in love with you now there's just a little more until I'm a different me from those days  
I'll send it I'll tell it I'll echo it yeah

(Ah... the painful memories are passing)

With my whole body and soul, I'm making my way  
To get back "myself", I'm going upwards  
I'll find something new  
Surely we'll meet again someday

(Ah... if it's now, I'll tell you everything)

With my whole body and soul, I'm making my way  
To get back "myself", I'm going upwards
