No matter what, I want to show you a wonderland
In the flickering light and shadows that go around, there is a mystery
No one knows what's behind the doors

Oh baby, if the circus curtains are opened

Show time begins in our dreams
I'll show you a dazzling time
What should I do so that I'm reflected in your eyes□
Going to a rendezvous with you in a rose-colored world

No matter what, I can't reach your heart
Only passing by each other on swings in the sky
Stretch out your hand in my direction

Oh baby, break through the boring nights

Shine a flashlight in our dreams
You'll be drawn into a secret maze
Each of your sorrows, let's forget them tonight
Light that reaches the starry sky I want to illuminate it

No one knows where we are, only you
Let's hold each other close

Show time begins in our dreams
I'll show you a dazzling time
What should I do so that I'm reflected in your eyes□
Going to a rendezvous with you in a rose-colored world

The night will invent the world
I'll show you a never-ending dream
Each of your sorrows, let's forget them tonight
Light that reaches the starry sky I want to illuminate it

Going to a rendezvous with you
