Don't stop!

Don't stop!

If one gear goes out of order everything goes out of control  
The more we try to unreasonably stop it, the more it accelerates

Rather than struggling with a power you can't see, how about trying to leave  
it up to the flow of things  
It was born that day and since then, it led me to this place

It's not like I knew the conclusion from the beginning  
Assuming there's a long journey ahead go to the next place, and the next, co  
me on, to the next place□come on, to the next place□

So

Chance... break your worthless imagination into small pieces  
You know only too well that there aren't only good things, right?  
Start from anywhere  
Start and any number of times, I'll look at it again  
Waiting for something new  
For now, I have no choice but to continue going forward  
Don't stop!

Deceiving with a vague answer even if I let that situation pass  
It's expected that I'd repeatedly wonder to myself my pained heart knows that

Even compared to someone else, it can't be helped that I feel sad  
Because the future won't be stopped go to the next place, and the next, come on, to the next placecome on, to the next place

So  
Chance... if you fall down at a crossroads, raise your head  
Even if it doesn't make you look good, "you aren't a guy that just can't get up," right  
Start even if you get a late start  
Start or take the day off, it doesn't matter  
New encounters are waiting  
For now, I have no choice but to continue going forward  
Don't stop!

Without holding anything or without waiting  
Without giving it to anyone or hiding it  
To a place I haven't seen yet  
Like this ride on!

Chance... break your worthless imagination into small pieces  
You know only too well that there aren't only good things, right?  
Start from anywhere  
Start and any number of times, I'll look at it again  
Waiting for something new  
For now, I have no choice but to continue going forward  
Don't stop!
