

Face Down : Reborn

Arashi

Here I am, standing right in front of you
Open heart, all my walls have fallen down
Here you are, but when I look into your eyes
I just can't see, Who are you?

Is there something you're afraid to say out loud?
You can tell me everything you dream about
You can trust me I am never walking out
I want to know your secrets

(Tell me, Tell me) What is going on with you
(Help me, Help me) How do I get through to you?
(I am right here) Show me what I've got to do
Take my hand I will light up the darkness

(Woah Woah) Ever since the day you came
(Woah Woah) Nothing's ever been the same
(Woah Woah) Since I heard you say my name
(Woah Woah) Bye

Tell me, tell me

(Woah Woah) Tell me, Tell me
Help me, Help me
I am right here
Tell me, Tell me

In this world where we are always chasing time
You can let go. You can leave the past behind
Free yourself and then I know that you will find
You're not alone believe me
