Count down, count down without understanding it

Hold on, hold on I'm being pulled toward you

A sense of deja vu that I'd seen it somewhere before comes over me again and
 again, throwing me upside down
In the middle of the night, my heart is in turmoil the closer you get, the m

These deceitful imitations as well erase them erase them all

Liar, liar the lies and the truths
Tell me, tell me I can't see them anymore
Secret, secret who are you?
Without even leaving behind a shadow, you escape

Whoa... oh... a lonely dream
Whoa... oh... that had lost its color
Whoa... oh... if we lock it up
Whoa... oh... bye bye bye

A pitch black sky I try to grab it but
It's like a supernova
Next to the door
To quench my thirst, I'll dance even more
Accept the darkness and the morning will come once again
Holding each other the key is
Pump it up

Count down, count down without understanding it
Hold on, hold on I'm being pulled toward you
Secret, secret you're so mysterious
You escape without showing your real face to me

Liar, liar the lies and the truths
Tell me, tell me I can't see them anymore
Secret, secret who are you?
Without even leaving behind a shadow, you escape
