From Monday to hard days (oh) escape them all with Friday (oh)
At night, I become a magician (oh) it's sky (oh) swaying side to side (hey!)

"B" to da "e" "e" "r" my throat is parched
That's the least you have to be worried about yeah, there's still one hour left

Even hard work makes progress towards Friday what should I wear today?
If you're on standby, then dive into the weekend
Let's meet "is this love?" when my heart starts to pound

A journey starting to the boom boom beat
You too should dance to the super-duper bang bang beat
The beats per minute that we glance at each other if it shakes your heart, then I'll be in your dreams

Oh yeah! let's start it yeah! yeah
Dancing under the starlight with you and the universe
Oh yeah! let's start it yeah! yeah
The mirror ball moon glitters

Oh yeah! let's start it yeah! yeah
Under the spotlight in a flow that takes over
Oh yeah! let's start it yeah! yeah
Here we go! let it go! in tonight, in tonight

How much time do we have left? this is a dazzling flight dreams that you never forget are beautiful
The time to say goodbye comes closer crying on the inside moments that you can't go back to are beautiful

(Yeah yeah yeah whoa whoa whoa)
Turn it up! turn it up! let's keep spinning around! let's dance
(Yeah yeah yeah whoa whoa whoa)
Coming up! coming up! don't hesitate
(Yeah yeah yeah whoa whoa whoa)
Turn it up! turn it up! let's keep shining! let's dance
(Yeah yeah yeah whoa whoa whoa)
Make it heard throughout this universe here we go

Shining my headlights, I escape the city heading in the direction that every one will gather
Today, throw everything away right now
Smiles are the only thing that will overflow
(Hey) take off your necktie (hey) from a while back, you were already dancing
Only faces that you know have gathered together at the same time, we take off into flight tonight

Oh yeah! let's start it yeah! yeah
Dancing under the starlight with you and the universe
Oh yeah! let's start it yeah! yeah
If you follow the path left by the moon

Tonight's not over yet
The stars shower down magic
Carrying our wishes

Here we go! let it go! in tonight, in tonight
In tonight, in tonight
