Na na na na na...

Push your way through the dizzying uncertainties in your mind
You won't find anything like the "right answer" to them
Having a dream is not an easy thing to do
If you try listening closely, your heart is whispering to you

Walking through a dark, empty land alone go forward now
What was held tight in our hands were your words to us
Beaten by the rain, struck by the wind we'll shout out

Viva youth! be proud we can always change
With a "one, two, three", look forward and go blow common sense away
Viva youth! stand up you're not alone
Celebrating our revolution with a parade of dreams and hope
Steer our ship to joy

Even if your answer isn't right, so long as you have the courage
The truth never ends with only a single possibility

Feeling the wind, you take off good luck to you
People are all weak everybody cries
The rain lets up and the curtain rises so we make a promise

Viva youth! burst into full bloom everything can be changed
With a "one, two, three", start to run push your way forward how you want to
Viva youth! shout it out don't give up yet
Even the smallest of hopes will become a cheer for tomorrow hold onto it tight in your heart

Friends who are fighting in the storm together go forward now
What was held tight in our hands were your words to us
Beaten by the rain, struck by the wind we'll move forward

Viva youth! be proud we can always change
With a "one, two, three", look forward and go blow common sense away
Viva youth! stand up you're not alone
Celebrating our revolution with a parade of dreams and hope
Steer our ship to joy
