Blame the vagueness of today and praise the indiscretions
Fill in the opaque sky with color!

There hasn't been anything all that good recently
The 100 yen coin I picked up yesterday was about it
Because it's safe, it's boring
It's a peace-loving era
I laughed off the forced smiles given to me

Uu... my personality sticks out
Ha... if it gives me more flavor, then it's ok
Uu... though sometimes the sharp parts get in the way

Horizon, ride on tomorrow will come
Decide for yourself that the future will be great

Horizon, glider ride on the wind
It doesn't matter if we're in the minority on the horizon

From the conversations I often hear if I walk through the city
It seems like our rich country is in a pinch
Because we can't see it, it doesn't feel like it
This is gonna be trouble
No one seriously cares about it

Uu... feeling lethargic from this slight fever
Ha... I'd rather be feeling defiant
Uu... that weakness is a good point of mine
Pride hurts although it scabs over

Horizon, ride on we're gonna go
We'll make them say the future is strong

Horizon, climber we'll climb our way up
We're aiming to turn the tables on the horizon

We wanna see the horizon we can see the horizon
We wanna see the horizon we can see the horizon
We wanna see the horizon we can see the horizon

Even if we take off at "ready, go!"
The maze in front of us continues everywhere
It goes on and on, forever

We're innocently playing an off-key song
After all, we're the stars here
"If I turn there and turn at the next corner"

"I can get there" it's okay not to think like that
Just take a step if you can, two
Let's go! welcome the head wind!
Don't surrender this road to anyone I say will reach to the horizon
Let's make flowers bloom in our hearts, well!

Horizon, ride on tomorrow will come
Decide for yourself that the future will be great

Horizon, ride on we're gonna go
We'll make them say the future is strong

Go way go way see? how about that then?
Go way go way have fun
Horizon horizon it's beginning
Ride on ride on be happy on the horizon

Blame the vagueness of today and praise the indiscretions
Fill in the opaque sky with color!
