The world reflected in a mirror  
We'll change what's normal tonight

Whether we're awake or asleep, we want to see dreams  
So let's go to the floor  
Da-da-da-da-dance

A superstar basking in the light  
That's right, the next one is for you  
Tonight it's almost like the universe  
Move your body  
Boys and girls that don't hold back  
You're already prepared, aren't you?  
Shake your body with the mirror ball  
Don't stop music

Super super super dupa star  
This singing crew of rain and wind "wazzap?"  
The blue of the sky is so deep it seems to hum and a figure with wings is th  
ere  
Or rather  
We can't go back anymore if you're with us, you can keep going, right?  
With the mirror ball, shake, shake ya body  
Until the sun starts to move above the city again, move ya body

I want to wake up my instincts someday I'll be mr. perfect  
Bet your life on the dice it definitely won't miss

This is the chance of a lifetime because you're here  
I'll go to the top  
Che-che-che-che-check

Raise both your hands and clap  
Now's the time that we can become one  
Tonight's almost like paradise  
Move your body  
Carve the break beats into your heart  
We can't be stopped anymore  
A microphone overflowing with soul  
Don't stop music
