Yeah

Around midnight, I find myself getting so excited I've got goosebumps  
I can't stop this looking up at the crescent moon  
Somebody tell me about what nobody knows  
Let me tell you, I'm attracted to your perfume

(Show me) how you feel  
(Rock me) more intensely  
Can't you feel me? goin' crazy!

Baby, this gravity feels good to both of us yeah  
Oh lady the timing's a little tight, but I want to see everything

If this is a dream, you're acting too irritated I know you lied  
You're so pushy pulling me closer with your posture  
The acceleration of my heart beat, an undeniable attraction  
Excited condition I can't take this anymore

(Shake me) how you feel like

(Hold me) make me even hotter  
Can't you feel me? goin' crazy!

I can't stop this oh, you take me higher  
Tangled together, I shake you let's fly into the night

From the shadows cast on the window frame to the bare skin just beyond  
Moonlight and the many mornings that followed marked the passing time  
But even now, I'm still curled up inside of you  
There's a boundary between our vain minds and our bare bodies

Oh oh yeah yeah can you make me fly high?

(Show me) how you feel  
(Rock me) more intensely  
Can't you feel me? goin' crazy!

Baby, this gravity feels good to both of us yeah
