

## Party Starters

Arashi

We've been waitin' too long  
We been waitin' to feel it  
We've been holdin' it down  
Now we're high on the ceilin'  
We keep dancin' around  
Clap ya hands if you mean it  
Do you need it  
Do you need it now

We been here  
Through the hard times  
Never lost focus  
Still here  
Now it's alright  
Everything golden  
So here we  
Here we go  
It's time to  
Free ya soul

We're party starters  
We're party starters  
We got those good vibes  
We're going all night  
We're party starters  
We party harder  
We goin' sky high  
We're going all night  
All night long  
All night long
