Under the silent schemes, could you burn intensely for me?  
From your casual attitude, your face like an adult, along with the faking is  
n't that okay?

Sharing the swirling passion if we sway together, it's step by step  
If we melt together, we'd be more than night and day as our instincts desire

Shake it, dance, dance, dance  
Slipping into the night, taking you who were sad and cried with me  
See? it's easy as you thought  
Now, even more stir it up

Dance, dance, dance  
If you've experienced it, let's talk about harsh love  
It'll become easier, right? not with words  
Feel the beat with your body yeah

Shake it, shake it, shake it, the body  
Shake it, shake it, shake it, the body

Shake it, body tonight, you're the number 1 shiny girl  
If you say it in a super funky style, it's gorgeous  
Dance, dance from the top of your head  
Bounce, bounce mm, to the bottom of your feet  
Ride on the beat deep in your ear drums, hear the countdown

Wanting it intensely while having a gentle style  
You who accepted that were a lonely girl  
If we can join together, then here, I'll show love  
Before you become colored by the information

Now, dance, dance, dance  
Until your throat is hoarse your just dance, if you want to  
See? it's easy as you thought  
Feel the beat with your body

Watch this shake it, shake it the body
