I don't know your name shall we get to know each other?
The night's sun is a black light
The sound of the waves is in a Latin rhythm

Like a thousand and one nights
It's mid-Tokyo all night
Even if we pass by each other in the city tomorrow by chance
I wouldn't notice it was you because you're so sexy oh

High, high, high raise your hands
High, high, high raise them both
Without a chance to kiss you
The way you move your hips is the climax oh

High, high, high a high energy party
High, high, high raise your arms
Where did you learn that technique?
It's so enticing, I hate it

A dance time full of the heat of bodies it's a tropical atmosphere
It's like the mating season of beasts, born naked

Music that doesn't stop our hearts are beating fast
With our clothes still on, we took a shower
As we got wet, our body lines showed through the clothes oh

High, high, high raise your hands
High, high, high you can't run away
Without saying where you're going
Your gaze says you're leaving oh

High, high, high even higher
High, high, high raise your arms
Where did you learn that technique?
If I'm unprepared, it'll be all over for me

Even if we're silent even if you're silent
"I say loud!"
Even if you were silent, you'll raise your voice

"Sexy!" fangs that dug into my chest
"Sexy!" everyone's cheeva cheeva
"Sexy!" you like da god of shiva
I said raise your hands sexy seniorita!

Even if we pass by each other in the city tomorrow by chance
I wouldn't notice it was you because you're so sexy oh

High, high, high raise your hands
High, high, high raise them both
Without a chance to kiss you
The way you move your hips is the climax oh
