

Mmmm, dope, dope, dope, dope, dope, dope

Waking the fake up to lift off
Never maintained if I hit the first stalls
Give it all up, sweet, keep it till you want, I'll stop
Never for time to push pause
If you drink it up, we keep it goin' far
But you held back, even if you did have a clause
I'm giving up what'd you do for no cause, pause

A body that swing, swing
Just do the right thing
Bobbin', I mean just do the right thing
See you gettin' it
Takin' that dude off your hand

'Cause, uh, tonight I'mma watch you
Stroke, stroke, stroke, stroke, stroke, stroke
Feels like I'm on
Dope, dope, dope, dope, dope, dope
When I watch you stroke
When I watch you stroke
Stroke

Remember
You had all those dreams, always seemed so obscene
The ones you twisted and turned and burned
I wanna turn away you straight up
But you're making me stroke

A spliff on my lip
Pass that shit
Talkin' bout it as if it make you flip
You breakin' the flow, now hear me say
After the shit you put me through, say

'Cause I feel like I'm on dope when I watch you stroke
Uh, uh, uh, feels like I'm on dope
Tied down when I watch you
Stroke, stroke, dope, dope, stroke
