

Focus

Arca

Focus
Come on, focus
Focus

Focus, tell me what you want
You gotta stay present, take care
It scared me now more than ever, that you want it
I may deliver overnight
Forget moderation, fuck hesitation, oh
For the, for the part, so smoke up, I choke up

Shit was non-stop, blood let too
It's the fade, non-stop
What took you so long?
I thought you'd never wake up
I must be the make-up
Hope I never wake up
Never take mask off
There's no pause
It was so heavy
You gotta stop
It's movin' slow

Sendin' signals, the best of ways
Now you got a fade, hope it never fades
But this isn't how my mother raised me, I'm a changed man
New taste for blood, lettin' it
Watchin' movies in the dark
Cold sweat, can't stop my heartbeat, blood like this might

Fuck what you mean, I deliver the beat
Time is your focus
You load up, you bag it all up
Time is of the essence, the presence is defenseless
Don't play, time to play top to my surprise
Oh, wow, the sunrise, now look back to my eyes
My eyes, focus on 'em

Shit was non-stop, blood let too
It's the fade, non-stop
What took you so long?
I thought you'd never wake up
I must be the make-up
Hope I never wake up
Never take mask off
There's no pause
It was so heavy
You gotta stop
It's movin' slow
It's movin' slow
This time it's so heavy
It's movin' slow

Fuck what you mean, I deliver the beat
Time is your focus
You load up, you bag it all up
Time is of the essence, the presence is defenseless

Don't play, time to play top to my surprise
Oh, wow, the sunrise, now look back to my eyes

Shit was non-stop, blood let too
It's the fade, non-stop
What took you so long?
I thought you'd never wake up
I must be the make-up
Hope I never wake up
Never take mask off
There's no pause
It was so heavy
You gotta stop
It's movin' slow
