Wondered the General
During those slow dances where no one touched, no one touched
A position in Customs was a good secure job
Customs was a good secure
Working directly, such strange people
I have decided to take the liberty over your [?] in a different
way
Welcome to your [?]
[?] in the world

A particular word
Or prioritize
Let's create a pact [?]
[?] misunderstanding
Misrepresented and confided
Misrepresented and confided
[?] the price is the way in which I react
Working directly in Transport
Was probably more exciting and fun to watch in the movies
But really, such strange people
Music's slow dances were so pure
Take any of them, take any million
Who are they? What do they want?
Most famous poet in five explored galaxies
The streetlights came on and his image glazed
Before they let an expression fix their face, or the blind man
Till age thirty, of half a century in his craggy face
Surprise, he thought
She puts her hand on the bar
Slow dances where no one touched
