

Come here be my dog
Come here, let me touch
I can pet behind your ears, boy
I can walk you
Come here and be my dog
You know I wanna feed you
Love you, love you

Come here and be my dog
I know I can show you how to sit
I know I can give you cuddles
When you want warmth
When you want warmth
I want warmth too
So come here be my dog
Good boy

There is something in the way
You wag your tail
That drives me crazy, baby

I can pet behind your ears, boy
I can walk you
Love you, love you
