

# Self Defense

Arca

Self defense, self defense  
Self defense, nothing but self defense

Dumb love, numb fuck  
Come out with your motherfuckin' hands up  
Now answer, learn to step

Bounce up, now rewind it  
Twerk until my booty find it  
'Cause this no time to be tryna hide it  
Got my fellas mixed blood and we [?]  
My fast trick, your limp dick  
You resist, I insist  
Admit defeat, it's my treat  
Numb feet, then rock to the beat  
Lean meat while the angels weep  
Just you and me for the time to be  
It's a black hole with a white flame  
And a tan purse till words of war brain  
Lip lock, let 'em drop, your hips pop, it can't stop  
Ri-ri-ri-ri-rinse repeat  
Make it better then make it sweet

Roll it up, back it all up, [?]  
Just don't be late, just don't hate, just don't hate  
Just [?] never, just [?] never, just  
Just [?]  
Wind it, it's fine, you're fussy, [?]

'Cause I lose my sense I'mma

Give it the bounce, bounce  
Come up, the bounce, bounce  
Don't make it stop, the bounce, bounce  
Give it the bounce, bounce  
The bounce, bounce  
Give it up, give it the bounce, bounce  
The bounce, bounce  
Give it the bounce, bounce  
Never stop, just the bounce, bounce  
The bounce, bounce  
Give it  
Some time to bounce  
The bounce, bounce  
Give it the, the bounce, bounce  
The bounce, bounce  
Give it the bounce
