

Tapped In

Arca

Tie my laces up, headed to the flo'
Strut on fire, sleep no mo'
[?], fade out quick
Get me lit, watch this trick
Turn that lonely shit, might lose it again, make me choose it a
gain
Make me lose it again, watchin - when - hit herself
Because that thing has got to end
Hold her till the color fade

Her waist, her face, her taste, the bitch tapped in
Her pose, her clothes, she knows, the bitch tapped in
Her waist, her face, her taste, the bitch tapped in
Her pose, her clothes, she knows, the bitch tapped in
She's still runnin'

Endo, endo
Don't feel me

That's what I'm talkin' about
Bringing me

I'm still runnin' away

Her waist, her face, her taste, the bitch tapped in
Her pose, her clothes, she knows, the bitch tapped in
Her waist, her face, her taste, the bitch tapped in
Her pose, her clothes, she knows, the bitch tapped in
She's still runnin'
