

Alien Nation

Arcade Fire

Boy girl and in between
Cut from a laser beam
We seek a new vibration
(Alien nation)
Forget our parents' names
Synthesized to be the same
Nothin' will never change
(Alien nation)

Lonely but never alone
Tethered to a fake friend phone
Record this conversation
(It's a simulation)
Black Friday cyber attack
Freeway fracking sky is cracked
Sing with the congregation
(Alien nation)

Fly down the inner state
Of self care self hate
One-sided conversation
(Useless information)
We're goin' off the grid
We're blowin' off the lid
We're way beyond salvation
In the alien nation

Between the God of love (Alien nation)
And the God of lust (Alien nation)
In the crops they burn (Alien nation)
A Circle of Trust (Alien nation)
The flight's delayed (Alien nation)
For the prophet's spoken (Alien nation)
Put all your hopes
And all your dreams
In the machine
And the machine is broken
(The machine is broken)
(The machine is broken)
(The machine is broken)

I return to all my enemies
All the pain they would like to
Or could have caused me
I return this evil to them with love
In the name of the alien nation

(Alien nation, alien nation, alien nation)
(Alien nation, alien nation, alien nation)
(Alien nation, alien nation, alien nation)
(Alien nation, alien nation)
