Cold Wind

Arcade Fire

In the middle of the summer I'm not sleeping Cold wind blowing In the middle of the night they Try to find me but I'm still driving If you're going to San Francisco Lay some flowers on the grave stone There's music on the station but I'm just listening to cold win d whistling And if they ever find me tell the papers cold wind, cold wind cold, cold wind blowing cold wind blowing Неу Неу Неу Something ain't right Something ain't right And if they ever find me tell the papers cold wind, cold wind Cold, cold wind blowing, cold wind blowing, cold wind blowing, cold wind blowing, cold wind blowing
