

I Love Her Shadow

Arcade Fire

I met her in the moonlight
Holding someone else's hand
And learned I was a jealous man
All the love in her eyes
Broke me at first sight
We're breaking into heaven tonight

My brain had disconnected
My body from my heart
She dropped her hammer and broke me apart
I kissed her at the crossroads
Then jumped another train
We're breaking into heaven again

I love her shadow
And I love her light
We're breaking into heaven tonight
I love her shadow
And I love her light
We're breaking into heaven tonight

Breaking into heaven tonight
We're breaking into heaven tonight
Breaking into heaven tonight

Want you to tell me everything
About your hometown in the stars
Want to make new constellations
From your permanent scars
We never met but I remember who you are
I remember who you are
I remember who you are
I remember who you are
I remember who you are

I love her shadow
And I love her light
We're breaking into heaven tonight
I love her shadow
And I love her light
We're breaking into heaven tonight

Breaking into heaven tonight
We're breaking into heaven tonight
Breaking into heaven tonight
Breaking into heaven tonight
Breaking into heaven tonight
Breaking into heaven tonight

I love her shadow
I love her shadow
I love her shadow
I love her shadow

(Never go!)

She loves me

She loves me not
She loves me
She loves me not...
