

# Soft Power

Arcade Fire

Soft power got them so upset.  
They think it's over.  
But it's not done yet.

Soft power in the underground  
Gonna let the wind  
Blow the shit all around.

Well,  
Soft power gets into our brains  
Soft power now it's never going to be the same  
All your voices in the streets tonight  
Soft power  
It's alright

All your power makes the world go round  
You can cut the speakers  
You can cut all the sounds.  
But can you hear us  
Singing our song?  
Soft power  
Now it's coming on strong

Soft power gets into our brains  
Soft power now it's never going to be the same  
All your voices in the streets tonight  
Soft power  
It's alright

Soft power  
Look at them go  
Soft power  
They're about to explode  
Soft power  
In the Underworld  
Soft power  
Every boy and girl

We were born  
So it's our right  
You can cut all the power  
You can cut all the lights  
But we can see you even in the dark  
Your words are fire  
And we are the spark

Well  
Soft power gets into our brains  
Soft power now it's never, ever going to be the same  
All your voices in the streets tonight  
Soft power  
It's not alright

Soft power  
Look at them go  
Soft power  
They're about to explode

Soft power  
In the Underworld  
Soft power  
Every boy and girl

Call a doctor  
when it's not alright

Call a doctor  
Cause it's not alright

Call a doctor  
It's not alright

Call a doctor  
Cause it's not alright

Well.

We'd love to help you  
But we're not home.  
Leave a message:  
It's impossible now.

We'd love to help you  
But we're not home.  
Leave a message:  
It's impossible now.

We'd love to help you  
But we're not home.  
Leave a message:  
It's impossible now.

(Here we go...)
