

Stuck in my Head

Arcade Fire

Stuck in my head
Stuck in my head
Stuck in my head

Stuck in my head
Stuck in my head
Stuck in my head

Something you said
Something' you said
Something you said

Stuck in my head
Stuck in my head
Stuck in my head

It's a mess in my bedroom
A mess in my car
A mess in my head
A mess in my heart

It's a mess in my bedroom
A mess in my car
A mess in my head
A mess in my heart

Stuck in my head
Stuck in my head
Stuck in my head

Stuck in my head
Stuck in my head
Stuck in my head

Was it something I said
Somethin' I said
Somethin' I said

Somethin' I said
Somethin' I said
Somethin' I said

One day I'll find
The perfect girl
And I'll give her a name
And I'll make her my world
And I'll put her up on a pedestal
Fill our bad apartment
With flower petals
And all the songs
That are trapped inside me
She shall release
And I'll never be lonely again
Never be lonely again

You fuck with my head
You fuck with my head

You fuck with my head
You fuck with my head
Fuck with my head
Fuck with my head

I sleep on the floor
To be close to God
I burn my idols
I quit my job
All the feelings that I can't express
All the songs are dying inside my chest
And if you leave
Then I'll start again
You could shave my head
Turn my daughters against me
Erase my name
Cut my credit cards
Body in the gutter
Heart is in the stars

(Mischief)

Stuck in my head
Stuck in my head
Stuck in my head

Stuck in my head
Stuck in my head
Stuck in my head

It's a mess in my bedroom
A mess in my car
A mess in my head
A mess in my heart

It's a mess in my bedroom
A mess in my car
A mess in my head
A mess in my heart

It's a mess in my bedroom
A mess in my car
A mess in my head
A mess in my heart

It's a mess in my bedroom
A mess in my car
A mess in my head
A mess in my heart

[illegible]

Stuck in my head
Stuck in my head
Stuck in my head
Stuck in my head
Stuck in my head
Stuck in my head
Stuck in my head
Stuck in my head

I quit this job
I quit this job
