Vampire/Forest Fire

Arcade Fire

You wanna be set apart?
Burn all of your art repair the wasteful part
I'm a vampire in a forest fire
Hey! we all gotta keep warm
driving towards the storm

Your father was a pervert
Face down in the dirt
He taught you how to hurt
My father was a miner who lived in the suburbs
Let's live in the suburbs
If I let where I'm from burn I can never return!

My brother reads you and me his new poetry How embarassing Your sister pours the gasoline I'll fix your meals while your burns heal!

Find a house you don't have to rebuild

Stone by stone, brick by brick, nail by nail my father never me ant to leave me this

Let this love last

I drive too fast

Said I'd return if I'd ever cared

But there's no interstate I find to take me there
