

# In This Town of Such Weather

Arcane Roots

You find me well and in good light  
After what has seemed forever  
While trees grow old from lasting,  
I am finding new things late  
To find her in this weather

I hope these leaves keep falling  
Down down down down down  
I hope these leaves keep falling  
Down down down

So keep me holding all the night  
We have our scene together  
I can't keep holding back  
The bruising hastens hesitate  
And could not be without her

I hope these leaves keep falling  
Down down down down down  
I hope these leaves keep falling  
Down down down down  
I hope these leaves keep falling  
Down down down down down  
I hope these leaves keep falling

I can't foresee anymore problems  
Problems I can do without  
This is the beginning of something  
I can't foresee anymore problems  
Problems I can do without  
This is the beginning of something

I can't foresee anymore problems  
Problems I can do without  
This is the beginning of something  
I can't foresee anymore problems  
Problems I can do without  
This is the beginning of something

I gave you all the things  
That you threw away  
Is it that you're so ungrateful  
Or that you can't bear to say?

How does she make me  
Forget all I was before?!  
She came and saved me  
Under all these leaves that fell

I hope these leaves keep falling  
Down down down down down  
I hope these leaves keep falling  
Down down down down  
I hope these leaves keep falling  
Down down down down down  
I hope these leaves keep falling

I can't foresee anymore problems  
Problems I can do without  
This is the beginning of something  
I can't foresee anymore problems  
Problems I can do without  
This is the beginning of something
