

## Over & Over

Arcane Roots

Lately I've seen fear surrender  
To a dear and dying art  
So let's hold these leaves as if they're branches  
And find holes to breath into our hearts

So baby put your arms around me  
Let's make love a lucky charm  
And if you see my fear surround me  
Will you be my one good arm

So I'll bring the gun if you bring the money  
To the starting line  
And out in the cold I go down on one knee  
And make you mine  
We'll buy a house together  
And bring the whole thing down  
As we'll stand together  
On and on and on and on and on

So baby would I get a second chance  
Even if I had to crawl

You know I've only got this song and dance  
To speak to you at all  
We put feet and hands together  
Right against the wall

So I'll bring the gun if you bring the money  
To the starting line  
And out in the cold I go down on one knee  
And make you mine  
We'll buy a house together  
And bring the whole thing down  
As we'll stand together  
On and on and on and on and on

You and me, you and me  
We were lost in the cold and left with the hopeless  
But I believe, I believe

And over and over we will see the edge  
And over and over we'll fall  
And over and over we'll never have enough  
And over and over we will see the edge  
And over and over we'll fall  
And over and over we will never be alone

So I'll bring the gun if you bring the money  
To the starting line  
And out in the cold I go down on one knee  
And make you mine  
We'll buy a house together  
And bring the whole thing down  
As we'll stand together  
On and on and on and on and on

You and me, you and me

We were lost in the cold and left with the hopeless  
But I believe I believe  
You and me, you and me  
We were lost in the cold and left with the hopeless  
But I believe I believe  
But I believe I believe  
But I believe I believe
